Taking your vehicle outside the country - border lock information

You can still visit foreign countries with our vehicles. No new or specific regulations have been put in place other than the current list of banned countries.

If you wish to leave the country with the rented car, it will have to be indicated by pick-up. Rented car is forbidden to take into the following countries: Albania, Belarus, Bosnia-Hercegovina, Bulgaria, Estonia, Latvia, Lithuania, Macedonia, Moldova, Montenegro, Russia, Ukraine.

Border crossing permit is required to entry into Serbia and only A, B, C categories are allowed by a special agreement.

Audi Q8 is back

Our 'L' category has been expanded with the new Audi Q8. Sporty compact proportions paired with the deep roof and a flat window form the rear section. The boot lid of the Audi Q8 ends in a tear-off edge - it connects the rear quattro blisters. A narrow, high-gloss black element with an integrated light band stretches between the rear lights. It is a feature of Audi's top models and emphasises the width of the Q8. Both by day and by night, an independent light signature is created, as was the case with the original quattro. The striking diffuser with its four vertical guide elements captures the look of the single frame. The large tailpipe apertures are integrated at its edges.
